

## **Wetland Field Technician and Storm Water Inspector**

### Job Description:

EcoSolutions, Inc. is seeking an environmental professional to join our team located in Daphne, AL. This is a great opportunity for an enthusiastic and talented individual to join our team and grow professionally. The individual will perform work associated with environmental permitting and wetland delineation.

### Responsibilities:

- Conduct soil, hydrology, and vegetation inventory for wetland assessments and delineations
- Prepare environmental permit applications.
- Complete permit compliance monitoring in the field regarding construction stormwater permits.
- Coordinate with clients and other inspectors to complete in field inspections for permit compliance.
- Document and summarize results from field inspections.
- Prepare plans, specifications, maps, and other documents for client and regulatory approval.
- Provide client and regulatory agency coordination

### Skills & Experience:

- Bachelor of Science in Environmental Science, Biology, Ecology, Environmental Studies, Forestry, Botany, Plant Science, or related field
- Knowledge of Native Plants and Plant Identification strongly preferred
- Knowledge of Hydric Soils preferred
- Proficiency with ArcMap/GIS is a plus
- Capability to execute and coordinate environmental permitting and environmental assessment activities with internal/external clients and regulatory agencies

### Additional Requirements:

- Ability to work in a team environment
- Regular field work in a variety of seasonal conditions
- Proficiency with Microsoft Office Suite
- Strong written and verbal communication skills
- Clean driving record.
